Roundabout seminar May 18 at Pulaski High School

Traffic experts ready for all roundabout questions

(Green Bay) A meeting to share information about roundabouts is scheduled for Wednesday, May 18, from 5 to 7 p.m. at Pulaski High School Auditorium and Commons. Anyone is welcome to attend the free event.

The seminar is all about roundabouts: what they are, why they are being built as part of the US 41 expansion project and what motorists need to know about driving through them. It will be an "Open House" style meeting, so anyone can drop in at any time. Wisconsin Department of Transportation (WisDOT) staff will give brief 15-minute presentations each half hour and be available to answer questions.

Pulaski High School is located at 1040 S. St. Augustine Street, Pulaski. Please use the front entrance to the school.

Roundabouts are relatively new to Wisconsin and up to 24 of them are being built in Brown County as part of the US 41 Project. Construction also soon begins on the new roundabout at the intersection of WIS 32 and County B in Pulaski. While they are easy to navigate, there is a learning curve for motorists who are new to them. This meeting is part of an overall outreach campaign by WisDOT to educate motorists about roundabouts.

For more information about the US 41 Project and the roundabouts that will be part of it go to www.US41wisconsin.gov and click on "Overview" then "Special Project Features."
